Dear Dr. Sittambalam:

Subject: Routine Inspection No. 030-32975/93-002

This letter refers to the December 9, 1993 correspondence from Jan R. Paris, M.D. in response to our November 19, 1993 letter.

Your written response does not meet the instructions as stated in the Notice of Violation dated November 19, 1993, specifically, you must include in your response to this Notice for each violation: (1) the corrective steps that have been taken to ensure that the requirements of 10 CFR 35.22 are met, (2) the corrective steps that will be taken to avoid further violations of this regulation, and (3) the date when full compliance will be achieved.

In the telephone conversation on November 15, 1993, Mr. Ferrini and Dr. Paris described to me that Grove Hill Medical Center, P.C. was comprised of several medical disciplines within the same organization. This description fits the definition of a medical institution given by 10 CFR 35.2. In order that we may adequately evaluate your request, as stated in your letter of December 9, 1993, for an exception to 10 CFR 35.22, please provide a list of the medical disciplines practiced at Grove Hill Medical Center, P.C. and indicate whether these disciplines are involved in the use of radioactive materials. You must ensure that the NRC regulations are satisfied until such time as we take final action on your amendment request. Please respond within 15 days of the date of this letter.

If you have any further questions, please feel free to call me at (610) 337-5304.
