FREEDOM OF INFORMATION
ACT REQUEST

FOIA-93-92
Rec'd 2-16-93

Secretary Samuel Chilk
Nuclear regulatory Commission
16 G 15
Washington, D.C. 20555

Dear Secretary Chilk:

Last Wednesday evening, February 3, 1993, Mr. Hehl and other representatives of the U.S. Nuclear Regulatory Commission met with concerned citizens on a current safety issue the faulty reactor vessel water level instrumentation. They were asked a question and recommended a formal written FOIA request would be the appropriate vehicle to obtain the information.

I, Mary Elizabeth Lampert, as Chairman of the Duxbury Nuclear Advisory Committee, under the Freedom of Information Act 5 USC sec. 552 request all the materials (including all calculations and quantifications) used by and presented to the NRC staff upon which they, "...also independently reviewed the bases for BECO's operability determination, and agreed with its conclusion." (NRC Report, Docket No. 92-23, December 1992, page 17). I also request notification of any information which may be exempted from the above request. I am not waving my right to appeal any and all exemptions. I also deem this information is in the public interest and is to the benefit of public health and safety. Therefore, I request the NRC waive any and all fees.

Thanking you for your prompt response, I am sincerely,

Mary Elizabeth Lampert
