Office of the President

July 14, 1982

Patricia C. Vacca
License Management Branch
Division of Fuel Cycle and Material Safety
U.S. Nuclear Regulatory Commission
Washington, D.C. 20555

SUBJECT: Special Nuclear Material License #SNM-1766
Baystate Medical Center, Springfield, Mass. 01107
Date of Expiration: 8/31/82

Reference: Your letters dated 5/11/82 and 5/20/82
Program Code 22160

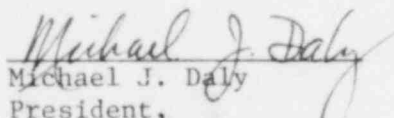

Dear Ms. Vacca:

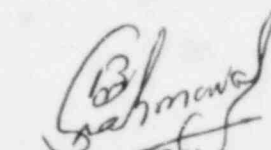

As per the decision of the Radiation Safety Committee (meeting dated 7/1/82) at Baystate Medical Center, I would like to request termination of the above license. We do not intend to implant plutonium cardiac pace-makers in our patients at Baystate Medical Center. No plutonium cardiac pace-makers were obtained under the above license for implantation in the patients in previous years. The completed certificate of disposition of materials (NRC form #314) is enclosed.

If you have any questions in this matter please call (413-787-5405) or write to Dr. S. Brahmavar.

Thank you.

Sincerely,

Michael J. Daly
President,
Baystate Medical Center

Suresh M. Brahmavar, Ph.D.
Director, Medical Physics & Radiation Safety
Radiation Safety Officer
