U.S. Nuclear Regulatory Commission
Materials Certification and Procedures Branch
Washington, D.C. 20555

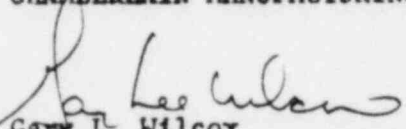

Attention: a) NRC License No. SUB-1193
b) Control No. 20835

Dear Mr. Baggett:

In response to your letter dated June 30, 1982, the activity for which Chamberlain was licensed at the Denver, Iowa Test Site was never conducted at that facility. As a result, no radioactive materials were ever introduced at that location so there were no materials or wastes to be disposed of or no need for a close-out survey.

Very truly yours,

CHAMBERLAIN MANUFACTURING CORPORATION

Gary L. Wilcox
Radiation Safety Officer
