Subject: **Retirement of the Tri County Diagnostic Center License**

Dear Ms. Grocott:

Based on the information provided by Promedco, the NRC was able to determine that: (1) a single gadolinium-153 source was purchased by Promedco for Tri County for use in a bone mineral analyzer; (2) the Tri County Diagnostic Center terminated operation and the Radiation Safety Officer, Dr. Clifford Turner passed on; (3) Promedco engaged the services of a consulting medical physicist to conduct a closeout inspection and dispose of the source; and, (4) shipment of a single source was made to Gulf Nuclear Industries of Webster, Texas.

Based on this information, License No. 37-20893-01, issued to the Tri County Diagnostic Center is retired.

Thank you for your cooperation in this matter. No reply to this letter is required.

Sincerely,

*Original Signed*
