Dear Mr. Alexander:

The Federal-Provincial Working Group on Bioassay and In Vivo Monitoring Criteria has completed its draft of the document "Guidelines for Tritium Bioassay". In order to ensure that this guideline meets the needs of Canadian workers, we would like to receive comments from all agencies that would be affected by its implementation. We would therefore appreciate receiving your comments before August 31, 1981 so they can be considered in the final draft.

Sincerely,

M.P. Measures
C. Pomroy
