Gentlemen:

SUBJECT: CONFIRMATION OF ACTION LETTER

This refers to a telephone conversation on April 5, 1989, between Ms. I. Guzman of the University of Puerto Rico Medical Science Campus and Mr. E. Kline of this office concerning the Confirmation of Action (COA) letter issued by the NRC on March 27, 1989.

During this conversation, you requested that the return of the Picker dose calibrator, Model 632-507, Serial No. 246971, to Picker Corporation for evaluation of the assay error associated with Phosphorus-32 be delayed until April 21, 1989. You indicated that there had been a delay in receiving a new dose calibrator and that the old dose calibrator was required for assaying other radiopharmaceuticals.

The new date for returning the Picker calibrator to Picker Corporation for evaluation is acceptable to the NRC.

We appreciate your cooperation in this matter.

Sincerely,
