Mr. Philip Stohr, Director
Division of Radiation Safety
and Safeguards
U.S. Nuclear Regulatory Commission
Atlanta, Georgia 30323

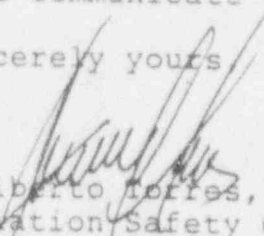

Dear Mr. Stohr:

Reference is made to your April 7, 1989 letter concerning the Picker dose calibrator (model 632-507) at the Division of Nuclear Medicine (Lic. 52-01946-07).

We want to advise you that the new calibrator arrived to our facilities and after all tests performed (linearity, etc.) on it same was placed in service today.

The old calibrator is in the process of being returned to the Picker Corporation for evaluation of the assay error associated with 32 p. As soon as we have the evaluations performed we will communicate it to you.

Sincerely yours

Heriberto Torres, Ph.D.
Radiation Safety Officer
