Joseph M. Farley Nuclear Plant - Unit 1  
Technical Specification Changes Associated With  
Steam Generator Tube Support Plate Interim Repair Criteria

Gentlemen:

By letter dated December 9, 1993, Southern Nuclear Operating Company (SNC) submitted a Steam Generator Tube Support Plate Interim Plugging Criteria amendment request for Farley Unit 1. This proposed amendment was supplemented by letter dated February 23, 1994. In the supplement, Bases page B3/4 4-3 should have been updated to include reference to the SNC February 23, 1994 transmittal letter; however, this reference was inadvertently omitted. Attached is the revised Bases page.

If there are any questions, please advise.

Respectfully submitted,

Dave Morey
