

APPENDIX B  
NOTICE OF VIOLATION

Department of the Army  
Brooke Army Medical Center

Docket: 30-00504/90-01  
License: 42-01368-02

During an NRC inspection conducted on July 17-18, 1990, a violation of NRC requirements was identified. In accordance with the "General Statement of Policy and Procedure for NRC Enforcement Actions," 10 CFR Part 2, Appendix C (1990) (Enforcement Policy), the violation is listed below:

10 CFR 20.201(b) requires that each licensee make such surveys as may be necessary to comply with all sections of Part 20. As defined in 10 CFR 20.201(a), "survey" means an evaluation of the radiation hazards incident to the production, use, release, disposal, or presence of radioactive materials or other sources of radiation under a specific set of conditions.

Contrary to the above, no surveys (evaluations) were made to assure compliance with 10 CFR 20.101(a), which limits radiation dose to individuals in restricted areas. Specifically, since 1988, an evaluation of the dose to the whole body of contract workers who worked in licensee restricted areas had not been made in that dosimeters assigned to these workers were not worn exclusively in licensee controlled areas.

This is a Severity Level IV violation. (Supplement IV)

Pursuant to the provisions of 10 CFR 2.201, Brooke Army Medical Center is hereby required to submit to this office, within 30 days of the date of the letter transmitting this Notice, a written statement or explanation in reply, including for each violation: (1) the reason for the violation if admitted, (2) the corrective steps which have been taken and the results achieved, (3) the corrective steps which will be taken to avoid further violations, and (4) the date when full compliance will be achieved. Where good cause is shown, consideration will be given to extending the response time.

Dated at Arlington, Texas,  
this 14th day of September 1990
