SUBJECT: ACCEPTANCE OF PROPOSED CHANGE TO THE QUALITY ASSURANCE PROGRAM FOR
FORT CALHOUN STATION

We have reviewed the changes to your quality assurance program description proposed in your Letter LIC-93-0303, dated March 22, 1994, and the listed references. These changes deal with your periodic review of plant procedures. We understand that all of your emergency operating procedures and off-normal procedures will be reviewed and exercised every 2 years in conjunction with your requalification training. We also understand that you will review before use any procedure that has not been used within 2 years. We find that the proposed changes to your quality assurance program description meet the requirements of 10 CFR Part 50, Appendix B, and NRC guidance documents and are acceptable.

Any questions you may have concerning this review should be directed to Mr. W. Ang at (510)975-0310.

Sincerely,

Thomas P. Gwynn, Director
Division of Reactor Safety
