

MAR 18 1994

Docket No. 50-341

The Detroit Edison Company  
ATTN: D. R. Gipson  
Senior Vice President  
Nuclear Generation  
6400 North Dixie Highway  
Newport, MI 48166

Dear Mr. Gipson:

SUBJECT: FEMA REPORT FOR THE 1992 FERMI 2 EMERGENCY PREPAREDNESS EXERCISE

We have received the enclosed Federal Emergency Management Agency (FEMA) correspondence dated February 15, 1994, transmitting the findings for the offsite emergency preparedness aspects of the 1992 Fermi 2 exercise conducted on June 3, 1992.

FEMA identified no new deficiencies in the performance of offsite agencies during the exercise; however, five Areas Requiring Corrective Action (ARCAs) were identified. Appropriate objectives related to these items should be planned for your next scheduled exercise.

We fully recognize that any further corrective actions to be implemented may involve parties and political institutions which are not under your direct control. Nonetheless, we would expect the subject of offsite preparedness for the area around the Fermi 2 Nuclear Power Plant to be addressed by you as well as others.

In accordance with 10 CFR 2.790 of the Commission's regulations, a copy of this letter and the enclosed FEMA report will be placed in the NRC Public Document Room.

Sincerely,

Original signed by J. Grobe

John A. Grobe, Acting Chief  
Reactor Support Programs Branch
