In the Matter of
Oncology Services Corporation
Byproduct Material License No. 37-28540-01
Docket No. 030-31765-EA

Dear Ms. Colkitt:

I have on this date, March 29, 1994, received your filing entitled "OSC's Motion to Compel Answers to Requests for Admissions," dated March 27, 1994, filed via UPS Next Day Air. Included in the UPS envelope were also envelopes addressed to the Administrative Judges, as well as to the other offices listed on the service list for the above-captioned proceeding. As I informed you in my letter dated March 28, 1994, pursuant to the Board's Memorandum and Order, dated December 17, 1993, you should serve each Board member with a copy of your filing at the address provided in the Board's Memorandum and Order. Each office listed on the service list should be served separately. I will, as a courtesy, provide the Board members and other offices with their respective envelopes. As your continued service on the Staff of all copies of your filings to be served in this proceeding has become a burden to the Staff and is not in accord with the Board's December 17, 1993 Order, in the future I suggest you adhere to the Board's Order in this regard.

Sincerely,

Marian L. Zabler
Counsel for NRC Staff
