

NOTICE OF VIOLATION

Consumers Power Company
Big Rock Point

Docket No. 50-155
Licensee No. DPR-6

During an NRC inspection conducted on March 7-11, 1994, a violation of NRC requirements was identified. In accordance with the "General Statement of Policy and Procedure for NRC Enforcement Actions," 10 CFR Part 2, Appendix C (1993), the violation is listed below:

Technical Specification 6.11 requires that procedures for personnel radiation protection be prepared consistent with the requirements of 10 CFR Part 20, and be approved, maintained, and adhered to for all operations involving personnel radiation exposure.

Station procedure RM-56 "Radiological Clearance for Off-Site Removal of Material" states that all material receiving "clean" status shall have no activity as detected via a direct frisk prior to release for unrestricted use.

Contrary to the above on July 22, 1993, September 20, 1993, and February 16, 1994, material with measurable levels of contamination was found outside the radiological restricted area.

This is a Severity Level IV violation (Supplement IV).

Pursuant to the provisions of 10 CFR 2.201, Consumers Power Company is hereby required to submit a written statement or explanation to the U. S. Nuclear Regulatory Commission, ATTN: Document Control Desk, Washington, D.C. 20555 with a copy to the Regional Administrator, Region III, and a copy to the NRC Resident Inspector at the facility that is the subject of this Notice, within 30 days of the date of the letter transmitting this Notice of Violation (Notice). This reply should be clearly marked as a "Reply to a Notice of Violation" and should include for each violation: (1) the reason for the violation, or if contested, the basis for disputing the violation, (2) the corrective steps that have been taken and the results achieved, (3) the corrective steps that will be taken to avoid further violations, and (4) the date when full compliance will be achieved. If an adequate reply is not received within the time specified in the Notice, an order may be issued to show cause why the license should not be modified, suspended, or revoked, or why such other action as may be proper should not be taken. Where good cause is shown, consideration will be given to extending the response time.

Dated at Lisle, IL
this 30th day of March 1994
