

FEB 22 1982

MEMORANDUM FOR: Richard C. DeYoung, Director
Office of Inspection and Enforcement

FROM: John G. Davis, Director
Office of Nuclear Material Safety and Safeguards

SUBJECT: CRBR ENVIRONMENTAL REVIEW

The Chairman has assigned a high priority to the CRBR environmental assessment. NMSS will be assisting NRR by reviewing and preparing portions of the overall CRBR impact statement including transportation. Dr. C. Vernon Hodge has been involved in the review of the transportation aspects of the CRBR and other draft environmental assessments. Due to the tight schedule, it is requested that Dr. Hodge be detailed to the Office of Nuclear Material Safety and Safeguards for six (6) months beginning about February 22, 1982, for the purpose of reviewing the transportation aspects of the CRBR fuel cycle environmental assessment.

(Signed) John G. Davis
