*Tom / Homer
I'd like to discuss on 2/23
JGD*

NOTE TO: R. E. Cunningham

FROM: John G. Davis

SUBJECT: CLINCH RIVER BREEDER REACTOR (CRBR)

As we have discussed, it is essential that NMSS not be a cause of delay for the licensing review of the CRBR. In line with this, NMSS must promptly elevate any matter that has the potential for delay. If delay is attributable to DOE, we should draft memoranda from NMSS (Denton) to DOE so that it can be clear we are not the cause of any delay that may exist.

The week of 2/23, I would like a brief discussion on CRBR that includes:

1. Delays thus far, cause of delays, when potential for delay(s) first became known to NMSS and our actions.
2. Readiness of NMSS to promptly process submittals--plans that would allow for compression of NMSS schedules.
3. Legal sufficiency of that which NMSS plans to accomplish for the EIS on fuel cycle.
4. Any foreseen problems.

Please assure appropriate staff are invited to the discussion.
