Dear Mr. Beard:

SUBJECT: CRYSTAL RIVER UNIT 3 - AUXILIARY FEEDWATER PUMP CONCEPTUAL DESIGN  
(TAC NO. 67802)

In our letter dated August 22, 1990, we stated that, based on a preliminary review of your letter of May 31, 1990 on the subject, we had no comment at that point on your conceptual design, but that our review was continuing and any further comments would be transmitted shortly. We have now completed our review of this material, and have no additional comments.

Since you have determined that you are proceeding with this modification under 10 CFR 50.59, we see no reason to continue a formal review effort, and therefore consider our efforts on TAC No. 67802 to be complete. However, we would welcome being advised of significant design features, status, and other developments of interest as the modification progresses toward your commitment of full implementation during Refuel 8.

Sincerely,

Original signed by
