Mr. George Kuzmycz  
Nuclear Regulatory Commission  
7920 Norfolk Avenue  
Bethesda, Maryland 20034

Dear Mr. Kuzmycz:

As discussed by telephone between yourself and Chuck Fuller of our staff, we request deferring submittal of a finalized Technical Specification concerning the proposed undervoltage relaying modifications until those modifications are undertaken. Phase 1 of the modifications are scheduled to be completed during the third refueling shutdown, currently slated to begin in October, 1983. By deferring submittal, we can more accurately insure the Technical Specification proposal reflects as installed conditions.

If you have any questions on this matter, please contact Chuck Fuller at (303) 785-2224.

Very truly yours,

*Don Warembourg*  
Don Warembourg  
Manager, Nuclear Production
