Sequoyah Fuel's Corporation  
ATTN: Mr. Lee R. Lacey, Manager  
Regulatory Compliance and  
Quality Assurance  
P. O. Box 610  
Gore, Oklahoma 74435

Gentlemen:

In accordance with your license amendment application dated September 7, 1990, and pursuant to Title 10, Code of Federal Regulations, Part 40, Materials License No. SUB-1010 is hereby amended to incorporate the revised Radiological Contingency Plan. Accordingly, Condition 9 is revised to include the date of September 7, 1990.

All other conditions of your license shall remain the same.

Based on our review of the revision to your Radiological Contingency Plan, we conclude the change decreases the effectiveness of the Plan. However, we consider the change acceptable as it is sanctioned by the recently promulgated 10 CFR 40.31 requirements regarding emergency preparedness for major fuel cycle facilities.

Enclosed are copies of revised Materials License No. SUB-1010 and our Safety Evaluation Report.
