Docket No. 50-267

SUBJECT: Operator Licensing National Examination Schedule

REFERENCE: Generic letter dated August 10, 1990 (G-90195)

Dear Sir:

Generic Letter 90-07, Operator Licensing National Examination Schedule, requested the submittal of license requalification examination schedule information.

Fort St. Vrain has shutdown permanently, and is currently in the process of defueling. This defueling is anticipated to be complete no later than July of 1992.

As our next operator license to expire will be in 1993, we are not requesting that any license renewals be performed in our future. Additionally, we are not planning any initial operator classes, and we are not requesting any NRC-administered requalification exams. Fort St. Vrain will not be participating in the Generic Fundamental Examination.

Our current staff of licensed operators is more than adequate to support Fort St. Vrain defueling activities, and we will not be requesting any NRC examination support in the future.
