Dear Mr. Pevey:

This is in response to your letters of May 23 and July 16, 1990 regarding the withdrawal of your May 23 physical security plan submittal.

We have reviewed your request and agree there is no requirement to maintain a physical security plan on file with the Nuclear Regulatory Commission under License No. SNM-362, as stated in your July 16, 1990 letter. You must continue to follow 10 CFR 73.67(f) for sites that possess or use special nuclear material of low strategic significance (Category III). If you decide to increase the material you possess you should apply 10 CFR 73, as appropriate.

Sincerely,

*Theodore S. Sherr*
