

SEP 27 1990

Ruben A. Alvarado, P.E., Convener
Host State Technical Coordinating Committee
Texas Low-Level Radioactive Waste Disposal Authority
7701 North Lamar Blvd.
Suite 300
Austin, Texas 78752

Dear Mr. Alvarado:

As we discussed in our phone conversation of September 26, the U.S. Nuclear Regulatory Commission (NRC) and the U.S. Environmental Protection Agency (EPA) are co-sponsoring an effort to compile a national profile on the volumes and characteristics of commercially generated low-level radioactive mixed waste. Although I regret that a Host State Technical Coordinating Committee (TCC) representative was unable to attend the September 18, 1990, kickoff meeting, I would like to invite a TCC representative to our next meeting, tentatively scheduled for October 23, 1990, and to subsequent meetings.

As I indicated to you, we would prefer to have a designated TCC representative to participate in the development of this project. We believe that TCC will provide valuable insight relative to the information needs of States and compacts and will contribute to the development of a national mixed waste profile. We also think that TCC involvement will improve the quality and utility of the final product. I hope that either you or your designate will be able to participate in this effort. Enclosed, for your information, are the meeting summary and handouts from our last meeting.

If you have any questions or comments on this matter, please contact me on FTS 301-492-0559. I look forward to hearing from you soon.

Sincerely,
Original signed by
Regis R. Boyle, Section Leader
Regulatory Branch
Division of Low-Level Waste Management
and Decommissioning, NMSS
