

ENCLOSURE 1

NOTICE OF VIOLATION

Carolina Power and Light Company
Brunswick Site

Docket No.: 70-324
License No.: DOR-62

During an NRC inspection conducted on February 5 - March 4, 1994, a violation of NRC requirements was identified. In accordance with the "General Statement of Policy and Procedure for NRC Enforcement Actions," 10 CFR Part 2, Appendix C, the violation is listed below:

Technical Specification 4.6.3.1 requires that each primary containment isolation valve specified in Regulatory Compliance Instruction RCI-02.6, Technical Specification Cross Reference, be demonstrated operable prior to initially placing it in service.

Technical Specification 4.6.3.2 requires that each primary containment isolation valve be demonstrated operable at least every 18 months by verifying that on a containment isolation test signal each valve actuates to its isolation position.

Contrary to the above, between April 23, 1993, and January 31, 1994, the licensee failed to demonstrate that primary containment isolation valve 2-CAC-V216 would attain its isolation position upon the receipt of a containment isolation signal.

This is a Severity Level IV violation (Supplement 1).

Pursuant to the provisions of 10 CFR 2.201, Carolina Power and Light Company is hereby required to submit a written statement or explanation to the U. S. Nuclear Regulatory Commission, ATTN: Document Control Desk, Washington, DC 20555, with a copy to the Regional Administrator, Region II, and a copy to the NRC Resident Inspector, within 30 days of the date of the letter transmitting this Notice of Violation (Notice). This reply should be clearly marked as a "Reply to a Notice of Violation" and should include for each violation: (1) the reason for the violation or, if contested, the basis for disputing the violation, (2) the corrective steps that have been taken and the results achieved, (3) the corrective steps that will be taken to avoid further violations, and (4) the date when full compliance will be achieved. If an adequate reply is not received within the time specified in this Notice, an order or demand for information may be issued as to why the license should not be modified, suspended or revoked, or why such other action as may be proper should not be taken. Where good cause is shown, consideration will be given to extending the response time.
