Uranium Recovery Field Office  
Region IV  
U.S. Nuclear Regulatory Commission  
One White Flint North  
11555 Rockville Pike  
Rockville, MD 20852

Dear Mr. Hall:

As part of the ongoing process for Uranium Mill Tailings Remedial Action (UMTRA) Project planning under the Five-Year Environmental Restoration and Waste Management Plan, the U.S. Department of Energy's (DOE) first "UMTRA/UGR Project Site Specific Plan" (SSP) has now been finalized.

The enclosed copy of the SSP's provided for your information. It is based on 1989 information and the DOE's proposed FY 1991 budget. It also incorporates comments offered in Fall 1989 by State, Tribal, and cooperating agency participants. Also enclosed are updated Activity Data Sheets (ADSs) for UMTRA Project sites. The ADSs reflect early 1990 information and the DOE's proposed FY 1992 budget. Copies of the SSP and ADSs are also being sent to Mr. Paul Lohaus, Chief of Operations Branch, Division of Low-Level Waste Management and Decommissioning.

Thank you for your participation in this important project. We look forward to continued cooperation in the DOE's ongoing environmental restoration planning process.

Sincerely,

*Mark L. Matthews*
