Docket No. 030-05064
EA 90-153

Gentlemen:

This refers to the special safety inspection conducted by Messrs. B. A. Parker and G. L. Shear of this office on August 28, 1990, in response to a report of an apparent overexposure received by a radiographer's assistant and to the discussion of our findings with you and members of your staff at the conclusion of the inspection.

The enclosed copy of our inspection report identifies areas examined during the inspection. Within these areas, the inspection consisted of a selective examination of procedures and representative records, observations, and interviews with personnel.

During this inspection, certain of your activities appear to be in violation of NRC requirements. You will be notified by separate correspondence of our decision regarding enforcement action based on the findings of this inspection. No written response is required until you are notified of the proposed enforcement action.

In accordance with 10 CFR 2.790 of the Commission's regulations, a copy of this letter and the enclosed inspection report will be placed in the NRC Public Document Room.

We will gladly discuss any questions you have concerning this inspection.

Sincerely,

Charles E. Norelius, Director
Division of Radiation Safety and
Safeguards
