Gentlemen:

We have received your letter of August 30, 1990, which transmitted changes to your radiological emergency response plan (RERP). We have reviewed these changes and have determined that they are acceptable and do not appear to degrade the effectiveness of your emergency planning at Fort Calhoun Station.

These changes primarily consist of adding detailed descriptions of plant systems by reference to specific procedures and manuals and improving readability and clarity.

If you have any further questions or comments, please contact Mr. Nemen Terc at (817) 860-8129.

Sincerely,

Dwight Chamberlain for
Samuel J. Collins, Director
Division of Reactor Projects
