Subject: Report No. 47-15726-01/82-01

This refers to the routine safety inspection conducted by Mr. R. A. Brown of this office on July 29, 1982, of activities authorized by NRC License No. 47-15726-01 for your facility. Our preliminary findings were discussed with Mr. Brachhawat, Chief Engineer, at the conclusion of the inspection.

The inspection was an examination of the activities conducted under your license as they relate to radiation safety and to compliance with the Commission's rules and regulations and the conditions of your license. During the inspection, it was found that certain activities under your license appear to violate NRC requirements. These items and references to pertinent requirements are listed in the Notice of Violation enclosed herewith as Appendix A. Elements to be included in your response are delineated in Appendix A.

In accordance with 10 CFR 2.790(a), a copy of this letter will be placed in the NRC's Public Document Room unless you notify this office, by telephone, within ten days of the date of this letter and submit written application to withhold information contained therein within thirty days of the date of this letter.
