(NRC TAC NOS. 76083 AND 76084)

Gentlemen:

By letters dated February 28, 1990 (Serial: NLS-90-043) and May 8, 1990 (Serial: NLS-90-094), Carolina Power & Light Company (CP&L) requested a change to the Technical Specifications for the Brunswick Steam Electric Plant, Units 1 and 2. The proposed change would revise Technical Specification 3.7.1.2 to clarify and expand the service water pump operability requirements. Enclosures 1 and 2 of this letter provides the typed Technical Specification pages for your convenience in issuing the proposed request. Enclosure 3 provides instructions for the incorporation of the revised pages into the Technical Specifications.

Please refer any questions regarding this submittal to Mr. W. R. Murray at (919) 546-4661.

Yours very truly,

L. I. Loflin
