Subject: Amendment No. 4, NRC License No. 45-197,
Docket No. 030-19126

Dear Diane:

This letter is to request the following amendments to our above referenced NRC license. These were discussed with you on February 18, 1994.

- Item 10. Licensed material may be used at the licensee's facilities at One West Cary Street, Richmond, Virginia and 2601 South Main Street, Suite 303, Blacksburg, Virginia and at temporary job sites of the licensee anywhere in the United States where the U. S. Nuclear Regulatory Commission maintains jurisdiction for regulating the use of licensed material.
- Item 12. Licensed material shall be used by, or under the supervision and in the physical presence of, Gilbert T. Seese or George E. Becker, Jr. at the Richmond, Virginia facility and Mark A. Spencer at the Blacksburg, Virginia facility or individuals who have satisfactorily completed the device manufacturer's training program for safe use of portable gauging devices and have been trained in the licensee's operating and emergency procedures. The licensee shall maintain records of persons designated as users.

A copy of the plan for the storage site located in Blacksburg, Virginia is attached. In addition, the training certificate for Mark A. Spencer is also attached.

Duplicate records of all gauge information including Special Form Certificates, inventories, leak test and dosimeter results, our NRC License, and the NRC Information Notice 93-18 dated March 10, 1993 have been sent to the office for their files. NRC Form 3 Notice to Employees and the Non-Compliance notice have been sent to this location for posting at the storage site.

Please send me copies of 10 CFR Parts 19, 20 and 21 for distribution to our Blacksburg facility.

Thank you for your assistance regarding this amendment. Please contact me if there is any additional information that I can provide to you regarding this amendment.

Very truly yours,
