# Medical Emergencies at NRC Headquarters Buildings

---

NRC Headquarters Health Unit has two branches:

## OWFN

Room 2 F11  
Telephone number (301) 504-2272  
A nurse is on duty Monday through Friday  
from 7:30 a.m. to 4 p.m.  
**Closed for lunch, 12 p.m.-1 p.m.**

## Phillips

Room P-130  
Telephone number (301) 492-7481  
A nurse is on duty Monday, Tuesday, and Friday  
from 7:30 a.m. - 4 p.m. **and** Wednesday and  
Thursday from 7:30 a.m. - 4:30 p.m.  
**Closed for lunch, 12 p.m.-1 p.m.**

### Serious Illness or Injury at White Flint or Phillips

Call the Health Unit on  
(301) 504-2272      OWFN  
(301) 492-7481      Phillips

The nurse on duty at each of these branches can guide you in obtaining assistance.

### Serious Illness or Injury at NRC Headquarters Buildings Without a Health Unit Dial 9-911

Be prepared to give the following information:

1. Your name.
2. The address of the building you are in. (The addresses of the NRC Headquarters buildings are listed on page vii of this directory).
3. The place within the building where the ill or injured person is located.
4. The number of the telephone from which you are calling.

### Cardiopulmonary Resuscitation (CPR)

NRC employees who are certified to administer CPR and who are familiar with certain other basic first aid techniques may be called in emergencies. A list of their names is posted on each floor of all Headquarters buildings. If you have questions concerning this matter, call Patricia Kaplan on (301) 492-4639.

### On-the-Job Illness or Injury

The Health Unit evaluates and treats (to a limited degree) on-the-job illness or injury. For a minor illness or injury that requires medical attention, go to either the OWFN or the Phillips branch of the Health Unit.

## Telephone Directory Changes

Alphabetical Sections of future directories will be printed from information that has been submitted on the Form 15 to the NRC Headquarters Operator. Therefore, it is important that all changes be submitted promptly on NRC Form 15 to assure the directory information is always kept up to date and ready for printing.

This is just a sample copy of the new, revised NRC Form 15. Do not tear out this page. You need to fill one of these out each time there is a change in your information, either home information or at your office. In the event of any change, you will use this form. Form 15 has 4 copies; after you fill it out, send each one to a specific location that is indicated on each copy:

- (1) Payroll, Mail Stop MNBB 11104
- (2) Telephone Operations, Mail Stop P-812
- (3) Personnel Operations, Mail Stop W-468
- (4) Document Control Center, Mail Stop P1-37 (OWFN)

It is your responsibility as an NRC employee to complete Form 15 when entering the agency as well as whenever any change occurs. Note the new section on the righthand side: **Type of Notification**. Check one or more of the appropriate boxes. Be sure you complete the form **exactly** as you want it to appear in the NRC Telephone Directory (especially nicknames, hyphenated names, initials, and titles). Be sure to press hard; you will be making four copies.

If you are already listed, and submitting a form for correction or changes, complete the form the exact way it appears in the directory. If you are reporting a name change, be sure to state how your name was previously listed.

**It is the responsibility of the employee to detach the copies and mail them to the appropriate departments listed on each copy.**

## Official Headquarters Mail

The official mailing address for the U.S. Nuclear Regulatory Commission required on all incoming communications is:

**U.S. Nuclear Regulatory Commission  
Washington, DC 20555-0001**

**This mailing address is applicable to all NRC organizational locations at NRC Headquarters.**

This is the only acceptable mailing address and is required on all mail sent via the U.S. Postal Service. Do not use any other NRC Headquarters address (Bethesda or Rockville) for Headquarters mail. Include the specific mail stop and organizational identifier on the face of all communications to NRC; these are

available in this directory or from the Headquarters operator on (301) 492-7000.

All incoming communications that are hand-carried to any NRC Headquarters building by a private delivery carrier should be addressed to the building location and must include the specific mail stop and unique organizational identifier where applicable.

For example, incoming mail to be delivered to the White Flint location should be addressed:

**U.S. Nuclear Regulatory Commission  
(Mail Stop XX, XXX/XX)  
One White Flint North  
11555 Rockville Pike  
Rockville, MD 20852-2738**

# NRC Telephone System Guide

Report moves, additions, deletions and telephone number changes as soon as possible to Phillips Building, Room 812. Use NRC Employee Locator Form 15. (See sample form on page vi.)  
The form is available from all NRC supply rooms.  
This document is NUREG/BR-0046, Revision 21.  
This revision cancels Revision 20 of December 1993.

## GENERAL INFORMATION

### NRC Telephone Numbers

NRC telephone numbers for the Headquarters offices are for the most part suburban Maryland (area code 301) numbers. (Only the NRC Public Document Room in metropolitan Washington, D.C. has area code 202.)

The C&P Telephone Companies of Maryland, the District of Columbia, and Virginia require all interstate local calls in the Washington, D.C. metropolitan area to be made by including the area code and the local number (without dialing "1" first). This means that callers who are in the Virginia suburbs, or who are in Washington, D.C., must dial 301 before dialing the 7-digit NRC telephone numbers in Bethesda or Rockville.

The following example illustrates the procedure for dialing NRC's main telephone number 492-7000:

From a One White Flint North NRC office:	9-492-7000 or "0"
From a Bethesda NRC office:	27000 or "0"
From a Nicholson Lane NRC office:	27000 or "0"
From any other Bethesda city telephone:	492-7000
From Washington, D.C.:	301-492-7000
For long-distance toll calls:	1-301-492-7000
From an NRC regional office:	8-301-492-7000

### Emergency Calls

The **Emergency Operations Center** number is (301) 951-0550. Collect calls to this number will be accepted if the caller is reporting a nuclear emergency.

### NRC Switchboards

The switchboard located at NRC Headquarters (direct dial number (301) 492-7000) operates 24 hours a day, every day of the year, and provides telephone operator, Telex, facsimile, operator assistance for the hearing impaired, conference services, and emergency message services.

Each region also has its own switchboard, which operates during regular work hours only. After regional switchboards have closed for the evening or weekend, the Headquarters **Emergency Operations Center** telephone number is given to callers by means of a tape-recorded message, or callers may leave a recorded message. Regional switchboard numbers can be found in the Organizational Directory of this telephone book. (see "Organizational Directory - The Regions.")

The switchboard operators located at Headquarters (Headquarters operators) can help you place conference calls, locate office and employee telephone numbers (including area codes), and accept changes for the NRC Telephone Directory. If you need to know the area code for a local number (or any number) dial the Headquarters operator.

### FTS2000

The Federal Government has a network of leased long-distance telephone lines that it can use for official calls to other government agencies or to any commercial number in the United States.

Use FTS2000 to conduct your official business at all times. It **must** be used in lieu of commercial service, except in emergency situations. Be aware that FTS2000 is a usage-sensitive service. The government is charged for every minute of every call; the service is not provided on an unlimited basis.

### FTS2000 for Washington Interagency Telecommunications System (WITS)

One White Flint North (OWFN) uses the Washington Interagency Telecommunications System. These telephone numbers begin with "504."

One White Flint North is the only NRC building on WITS at this time.

Employees at OWFN can call other **local** Federal agencies that are also on the new WITS network by dialing just 7 digits without the "9" prefix.

# NRC Telephone System Guide

## Using FTS Dialing From OWFN Only

Dial 9 + 1 for FTS2000 is expected to deliver significant savings in long-distance charges.

<b>9+1*</b>	<b>+</b>	Area Code	<b>+</b>	The 7-digit telephone number
-------------	----------	-----------	----------	------------------------------

**Sample FTS2000 call: 9+1 + 809 + 123-4567**

The following examples illustrate the dialing instructions:

OWFN	OWFN	504-XXXX
OWFN	Bethesda	9-492-XXXX
OWFN	Another WITS No.	XXX-XXXX
OWFN*	FTS2000	9-1-XXX-XXX-XXXX
OWFN	NRC Operator	"0" or 9-492-7000

## Repair Service

At Headquarters, notify the Telecommunications Branch about malfunctioning equipment by calling 492-1234. In the regional offices, contact the respective Administrative Management Branch.

## Installation and Relocation

Staff located at Headquarters should submit requests for installation and relocation of telephone equipment on NRC Form 238, "Request for Telecommunications Services," to the Telecommunications Branch. Regional staff should submit requests to their Administrative Management Branch. Guidelines for determining the needs for telephone equipment are given in NRC Directive 2.3, "Telecommunications." Promptly inform the Telecommunications Branch/Administrative Management Branch about a service or equipment that is no longer needed.

## Telephone Device for the Hearing Impaired

A telephone equipped with a device (TDD) to answer calls from the deaf is available at (301) 492-4626. This number is at the Headquarters operator station staffed

24 hours every day. People who are deaf who have access to TDD equipment may make regular and emergency calls to this number. Emergency calls will be taken and relayed to the **Emergency Operations Center**.

## Recording or Monitoring Telephone Conversations

Except for calls recorded at the NRC **Emergency Operations Center**, no telephone call will be monitored or recorded by NRC personnel without the specific knowledge and consent of all parties to the call.

## Directory Assistance

To locate an NRC employee not listed in the NRC Telephone Directory:

- Dial "0" or 2-7000 from a Bethesda office.
- Dial 9-492-7000 from a WITS number.
- Dial (301) 492-7000 from elsewhere.

Telephones at NRC Headquarters and in the regions **may be restricted**, partially restricted, or unrestricted. Depending on the restrictions in effect, you will or will not be able to make calls to:

- Local numbers outside NRC
- FTS2000 numbers
- Directory Assistance

Directory assistance may be obtained by dialing commercially "9-411"; long-distance directory assistance may be obtained from OWFN via FTS2000 by dialing "9 + 1," the area code, and "555-1212". And from other buildings "8," the area code, and "555-1212". If your telephone is restricted, dial "0" for the Headquarters operator (in Region II, dial 331-4503). The NRC operator will connect you with the desired number.

**Please be thrifty** in using commercial directory assistance, as each call costs from 24 to 75 cents, depending on the source of the request. When calling for a long-distance number, directory assistance may be unavoidable; but to locate a local number, consult your local telephone directories.

## Commercial Long-Distance Calls

**The use of government telephone systems, including calls over commercial systems that will be paid for by the government, must be limited to the conduct of official business.**

See also: Personal Long-Distance Calls, p. 3 of this telephone system guide.

This service is provided by a long-distance carrier. The government is charged for each call. Use of this service

# NRC Telephone System Guide

Do not discuss or transmit classified or sensitive information via voice, data, or facsimile telecommunications on the FTS2000 network. See: "Secure Telecommunications Directory," page 131.

requires certification that the call is necessary in the interest of the government. Each caller must maintain a log listing each call made. In emergency conditions, personal long-distance calls may be placed through the Headquarters operator, provided that appropriate billing instructions are given to the long-distance operator. Dial "0" for the Headquarters operator (in Region II, dial 331-4503), and tell the operator you need to make a personal call. Give the area code and telephone number. The Headquarters operator will dial the number and connect you to the long-distance operator who will request your credit card or billing information.

The NRC uses the AT&T long-distance service to place commercial calls. If you wish to use another carrier, such as Sprint or MCI, or a credit card only accepted by an alternate carrier, tell this to the Headquarters operator when you give the number. Cards issued by a local telephone company will be honored by all national long-distance carriers. Other long-distance carriers may honor AT&T cards, and some are only available after dialing an "800" number to connect you. Refer to your long-distance carrier for any special instructions. The options you have for making commercial calls are:

- Bill collect (to the number you are calling).
- Bill to your residence or other personal phone.
- Bill the call to a personal telephone credit card.

## Personal Long-Distance Calls

NRC Directive 2.3 Part II, "Telecommunications," lists conditions for the personal use of government phones.

Commercially placed calls may be charged to a personal calling card or home number. Employees who need to make personal long-distance calls can make them from their desks using the following procedures:

### AT&T Cards:

- Dial "0" for the NRC operator.
- Give the NRC operator the telephone number (including area code) that you are calling. The NRC operator will dial the number. You will then hear a "bong" tone. At this tone, select your billing method.
- If you are billing to a home number or are calling collect, press "0."
- If you are billing to a calling card, punch in the complete card number.

### MCI Calling Cards:

- Dial 9-1-800-444-2222 + the number you are calling + your calling card number.

### GTE Sprint Calling Cards:

- Dial 9-1-800-877-8000 + the number you are calling + your calling card number.

## Collect Calls

Collect calls and charges to NRC Headquarters telephone numbers are prohibited except under emergency circumstances or with the prior authorization of the Chief, Telecommunications Branch. Requests for such authorization should be submitted with full justification by memorandum.

The NRC Headquarters operator will not accept collect calls. Persons calling the NRC to make emergency reports may call the **Emergency Operations Center** at (301) 951-0550, which will accept collect calls.

## Travel Status Official Calls

Calls to Headquarters 800 numbers will not be transferred outside the NRC local calling area. To make official long-distance calls while on official travel, place the call commercially, pay for the call, and include the cost on your travel voucher with appropriate supporting documentation.

Employees on official travel outside the continental United States may use telephone calling cards. Directors of offices or divisions may request calling cards from the Telecommunications Branch.

## Calls Outside the Continental United States

**Alaska, Hawaii, Puerto Rico, and the Virgin Islands** may be dialed via the FTS2000 system:

Calls from Headquarters to other points outside the continental U.S. may be made by dialing the Headquarters operator.

## Telex/TWX/Cablegram/Mailgram/Facsimile Service

Unclassified messages, such as Telex, TWX, cablegrams, and Mailgrams, can be sent or received by the NRC Headquarters message center located in Room P-812 in the Phillips Building. To send a message, complete Standard Form 14, "Telegraphic Message," and send it by mail to Room P-812 or by facsimile to 492-8110, 492-7617, or 492-4994.

The Headquarters operator will telephone the recipient of a Telex or facsimile message and hold the message for pickup, deliver it by interoffice mail if requested, or send the message to the recipient via facsimile.

To expedite the receipt of overseas messages, the following Telex numbers are available for messages coming in to NRC:

# NRC Telephone System Guide

- Telex number: 908142 NRC-BHD WSH
- Telex number: 1561687 NRC UT
- TWX number: 710-824-0412 NRC-BHD WSH
- Voice Verify: 301-492-7371 (24 Hours)

Facsimile services, secure facsimile services and equipment are available throughout Headquarters and the regions. Locations and telephone numbers are listed in the "Facsimile Directory" section of this phone book on pages 124-130.

## Voice Message Exchange

Throughout Headquarters, many employees are using the Voice Message Exchange "Voice Mailbox" to record their telephone messages.

In case of any problems with your Voice Mailbox service, contact the Voice Mail repair office on (301) 492-1234.

## TELEPHONE SYSTEM FEATURES

### Call Transfer

Any telephone at NRC can be used to transfer a call to any other telephone without operator assistance.

- If your telephone has a "FLASH" key, press it momentarily, or press the hang-up switch for about 1/2 second, until you get a dial tone. The caller will be on "hold."
- Dial the number to transfer the call.
- When the party answers, announce the call.
- Hang up and the call is transferred automatically.

### Consultation Hold

From any telephone, you can put a caller on hold while you use your phone to call another party for a private consultation.

- If your telephone has a "FLASH" key, press it momentarily, or press the hang-up switch for about 1/2 second, until you get a dial tone. The caller will be on "hold."
- Dial the desired number.
- Consult with the third person.
- When the other person hangs up, press the "FLASH" key or switchhook again to restore the original call.

### Add-On Conference Calls

If you have a single-line telephone, you may add an additional person to your conversation:

- If your telephone has a "FLASH" key, press it momentarily, or press the hang-up switch for about 1/2 second, until you get a dial tone. The caller will be on "hold."
- Dial the desired number.
- Tell the person being called that you are adding him/her to the conference.
- Press the "FLASH" key (or switchhook) again to establish the three-way conference.
- For larger conferences, dial the Headquarters operator and ask for Telephone Conference Service or a Conference Bridge.

If, when using these special features, the extension you are dialing is busy or does not answer, depress the switchhook twice to return to the original call.

### Telephone Conference Service

Conference service (also known as a Conference Bridge) is available to allow 4 to 75 people to participate in interoffice, local, FTS2000, long-distance, and international calls. Conference calls should preferably be scheduled 24 hours in advance. Give the operator as much advance notice as is possible. All participants must be notified of the time of the conference and the telephone number they should dial to participate in the conference. For other features of the Conference Bridge, call the Headquarters operator.

Conferences may be ordered by calling the Headquarters operator at (301) 492-7000. To request a permanent conference assignment, you must send a memorandum confirming your request to:

U.S. Nuclear Regulatory Commission  
Chief Operator  
Mail Stop P-812  
Washington, DC 20555-0001

NOTE: If when using the special features, the dialed extension is busy or does not answer, depress the switchhook twice to return to the original caller.

## Secure Telecommunications Directory

### Secure Telephones

Secure Telephone Units (STU-III) are used to conduct classified or sensitive unclassified conversations between NRC Headquarters, regional offices, and other government agencies. Below is a listing of locations and holders of STU-III phones at NRC. NRC also has portable and cellular STU-III's available. For further information regarding STU-III's, contact the Information Security Branch on (301) 504-2264.

### Secure Teletype and Facsimiles

NRC's Secure Communications Center is on-line with the Department of Defense's Automatic Digital Network (AUTODIN) system to receive and transmit classified or sensitive unclassified teletype messages worldwide. The Communications Center also has three secure facsimiles available to receive and transmit classified information, as well as Washington Area Secure High-Speed Fax (WASHFAX) capability. For more information or assistance, contact the Information Security Branch on (301) 504-2264.
