Dear Mr. Schwencer:

The attachment to this letter is provided pursuant to discussions held between PP&L representatives and Messrs. Douglas R. Kunze, NRC Plant Protection Analyst, and William J. Madden, NRC Physical Security Inspector, on September 1 and 2, 1982. PP&L has agreed to implement the actions described in the attachment. A change to the Physical Security Plan will be submitted in the near future. In addition, PP&L is reviewing all security computer system processing requirements with the long term goal of implementing desirable as well as required hardware and software changes.

The attachment to this letter contains Safeguards Information and should be controlled and protected in accordance with 10 CFR 73.21. When this letter is removed from the attachment, it does not contain safeguards information; the attachment remains safeguards information and, therefore, is not to be placed in the public document room.

Very truly yours,

N. W. Curtis
Vice President-Engineering & Construction-Nuclear
