Dear Mr. Jacobs:

Subject: Formerly Licensed Sites

Thank you for the copy of NL Industries' "Final Report - David W. Leigh Summary of Radiological Survey of NL Industries Niagara Falls Point, Spring 1979" which you recently sent to us. This report contributed information for the NRC's ongoing program to determine that formerly licensed sites meet current criteria for release for unrestricted use. Based on our review of this report and other information, it appears the former Titanium Alloy Manufacturing Division in Niagara Falls, New York site meets current criteria for release for unrestricted use. Enclosed for your information is a copy of Region I Report No. 40-1202/82-01.

Your cooperation with us is appreciated.

Sincerely,

Original Signed By:

John D. Kinneman, Chief
