Gentlemen:

SUBJECT: NRC INSPECTION REPORT NO. 50-395/90-21

Thank you for your response of September 14, 1990, to our Notice of Violation issued on August 15, 1990, concerning activities conducted at your V. C. Summer facility. We have evaluated your response and found that it meets the requirements of 10 CFR 2.201. We generally agree with the exceptions to the Notice of Violation which were included in your response; however, this event was the third event involving a misplaced valve(s) and there was adequate time for corrective action to prevent recurrence following the first event (February 1, 1990) even if the third event occurred as you stated before the second event was identified. Your response to the February 1, 1990 event was dated April 16, 1990. We will examine the implementation of your corrective actions during future inspections.

We appreciate your cooperation in this matter.

Sincerely,

ORIGINAL SIGNED BY
