EVENT DESCRIPTION AND PROBABLE CONSEQUENCES (10)

[0] [2] From 2008 on 8/25/82, to 0850 on 8/26/82, the sprinkler system for Fire
[0] [3] Zone 1-5A was out of service contrary to the requirements of Technical Specifi-
[0] [4] cation 3.7.6.2. The Susquehanna SES Fire Protection Review Report indicates
[0] [5] that the effects of a fire in this area without active fire protection could be
[0] [6] mitigated by the use of other plant systems, and that a safe shutdown could be
[0] [7] achieved.

CAUSE DESCRIPTION AND CORRECTIVE ACTIONS (27)

[1] [0] The "Detector Reset" was initiated on the Fire Protection Panel in the Control
[1] [1] Room, but the required "Reset of Priorities" (RSP) was not performed, contrary
[1] [2] to the operating procedure. The immediate corrective action was to initiate
[1] [3] the RSP, which restored system operability. The event will be reviewed with
[1] [4] each operating shift and become part of Operations' Required Reading Material.
