Director of Nuclear Material Safety and Safeguards
U. S. Nuclear Regulatory Commission
ATTN: Document Control Desk
Washington, D. C. 20555

Gentlemen:

River Bend Station - Unit 1
Refer to : Region IV
Docket No. 50-458

Pursuant to 10CFR50.54(p), Gulf States Utilities Company (GSU) submitted on May 29, 1990 (RBG-32904) Revision 12 to the River Bend Station (RBS) Physical Security Plan (PSP). Since several questions were raised by the Region IV reviewer, GSU is resubmitting the plan change as Revision 12A to include GSU's response to those questions. Revision 12A is considered a major rewrite and, thus, supersedes all earlier revisions. An explanation of the significant changes are enclosed to facilitate NRC review. The changes to the PSP were made to reflect current activities of the RBS security program.

The PSP is considered "Safeguards Information" pursuant to 10CFR73.21 and should be handled accordingly.

Should you have any questions, please contact Mr. David N. Lorring at (504) 381-4157.

Sincerely,

W. H. Odell
Manager-Oversight
River Bend Nuclear Group
