Dear Mr. Waterman:

SUBJECT: U. S. NRC INSPECTION REPORT 70-36/90-202

The Nuclear Regulatory Commission (NRC) conducted an inspection of your Hematite, Missouri, facility on July 9-13, 1990. This routine unannounced inspection covered various aspects of your material control and accounting program for safeguarding special nuclear material. Areas examined during the inspection are described in the Inspection Report Details (Enclosure 2). The inspection consisted of selective examination of procedures and representative records, discussions with members of the Hematite staff, and observation of activities in progress. At the conclusion of the inspection, the findings were discussed with members of the Hematite staff.

Within the scope of this inspection, no violations or deviations were identified. One inspector follow-up item regarding the March 1990 Material Balance Report resulted from the inspection.

In accordance with 10 CFR 2.790(d), documentation of the findings of your control and accounting procedures for safeguarding special nuclear material are exempt from public disclosure. Therefore, the enclosed Inspection Report Details will not be placed in the Public Document Room.

Should you have any questions concerning this letter, please contact us.

Sincerely,
Original Signed by
Theodore S. Sherr

Theodore S. Sherr, Chief
Domestic Safeguards Branch
Division of Safeguards and
Transportation, NMSS
