Subject: Catawba Nuclear Station  
Docket Nos. 50-413, and 50-414  
Technical Specification Amendment Request Withdrawal  
Surveillance Requirement 4.7.1.2.1a.4

My letter dated December 5, 1988 requested an amendment to Surveillance Requirement 4.7.1.2.1a.4. This amendment request specified that the surveillance applied to the Auxiliary Feedwater discharge flowpath, and substituted Catawba specific wording to specify when the surveillance is required.

Upon further review it has been determined that this amendment is not needed.

Very truly yours,
