Mr. Stephen B. Comley
Executive Director
We the People, Inc., of the United States
Box 277
Rowley, Massachusetts 01969

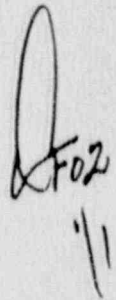

Dear Mr. Comley:

I am writing to acknowledge receipt of your letters of April 4 and August 13, 1990, in which you raised a series of questions regarding the Nuclear Regulatory Commission's decisions and actions with respect to the licensing of the Seabrook facility, the resumption of operations at the Pilgrim plant, and issues relating to the use of substandard parts during construction of licensed facilities. The Commission appreciates your interest in these matters but believes that the bases for these agency actions are fully and clearly set forth in documents available to the public. In the absence in your letters of any new factual information not previously known to the NRC, the Commission intends no further commentary on the issues you raised at this time.

Sincerely,

Samuel J. Chalk
Secretary of the Commission
