Gentlemen:

Please find enclosed NRC Form-591 which indicates that no violations were cited during the safety inspection conducted on September 7 and October 4, 1990 of activities authorized by NRC License No. 04-19527-02.

Violations concerning user authorization, physical inventory, posting of notices and regulations, and possession of package and special form test certificate were not cited because adequate corrections were made at the time of the inspection at your Castle Air Force Base job site.
