Subject: Decommissioning Rule

This is in reference to your letter dated April 30, 1990 and to our letter to you dated May 3, 1990, copies enclosed.

New guidance from NRC Headquarters indicates that your licensee's activities will not be considered to be exempt from the Decommissioning Rule. Therefore, additional information is needed from you to demonstrate compliance with 10 CFR 30.35:

1. An indication of your costs incident to transferring Krypton-85 gas to your customers.
2. An indication of your costs to prepare and ship cylinders for return to your San Fernando, California facility.
3. An evaluation of the costs involved with:
 - o operating the customer's ventilation system
 - o monitoring effluents to verify compliance with 10 CFR 20
 - o performing final facility surveys
4. Verification that adequate funding will be available in one of the forms indicated in 10 CFR 30.35(f).

Questions concerning these matters may be directed to B. Riedlinger at (415) 943-3765.

Sincerely,

/s/ Robert J. Pate

Dear Ms. Riedlinger

In response of the Decommissioning Rule which was published on June 27, 1988, in an event of termination of business or State of California Radioactive Material license, Trio-Tech will:

- (a) Transfer all licensed radioactive material - Sealed Sources and KR-85 gas in shipping containers (State of California License 2222-70) - to a licensed customer or to State of California License.
- (b) The storage of the 30010 TracerFlo and any other Licensed material storage tank separate from the TracerFlo that at the time might be at the facility and possession of Trio-Tech will be deactivated using procedures agreed upon by State of California.
- (c) The NRC license will be terminated together with the California State license.

Sincerely

Attila Szalay
(Radiation Safety Officer)
