Mr. J. Philip Stohr, Director Division of Radiation
United States Nuclear Regulatory Commission
101 Marietta Street, NW, Suite 2900
Atlanta, Georgia 30323-0199

RE: NRC Inspection Report No.: 45-24880-01/94-01
Docket No.: 030-29650, License No.: 45-24880-01

Dear Mr. Stohr:

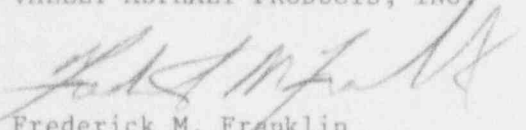

With regards to your letter of February 25, 1994 and more particularly to the contents of the fourth paragraph, we wish to comply with the requirements so mentioned.

On March 5, 1994, this writer met with Mr. William C. Walker and reviewed the contents of your letter and the severity therein. We discussed the serious consequences and questioned his judgement in mis-informing Mr. Lee Franklin as to our employee receiving the manufacture's training.

I have instructed Mr. William C. Walker to fully cooperate with any representatives from your office and any future disclosures will be addressed on an accurate and precise basis. I presently fail to understand the sound reasoning for this company's employees to mis-inform your representatives.

Yours very truly,
