Gentlemen:

**VIRGINIA ELECTRIC AND POWER COMPANY**  
**NORTH ANNA POWER STATION UNITS 1 and 2**  
**AMENDMENT REQUEST WITHDRAWAL**  
**GROUND WATER LEVEL - SERVICE WATER RESERVOIR**

Virginia Electric and Power Company requested an amendment in the form of changes to Technical Specification 3/4.7.13.1 "Groundwater Level - Service Water Reservoir" for North Anna Power Station Units 1 and 2. This was submitted by letter Serial Number 87-438, dated March 18, 1988.

Due to the installation of several new test wells and the removal from service of several existing ones, we are preparing a revised amendment proposal, which will be submitted in the near future, to further modify these Technical Specifications. We therefore request that the previous proposed amendment, cited above, be withdrawn.

If you have further questions, please contact us.

Very truly yours,

W. L. Stewart  
Senior Vice President - Nuclear
