OFFICE OF SECRETARY
DOCKETING & SERVICE
BRANCH

Secretary of the Commission
U.S. Nuclear Regulatory Commission
Washington, DC 20555

Dear Secretary:

I am thoroughly shocked by the NRC proposed life extension rule, which declares all existing plants are safe.

The intent of this proposal is the ultimate in morally depraved dereliction of responsibility by the NRC to protect human health and the environment.

The proponents of this proposal belong in jail.

Outraged,

Sidney J. Goodman
