Dear Mr. Sargent:

We reviewed your letter of March 16, 1994, proposing several minor modifications to the Kalkwarf Method for determining uranium solubility. We approve of your modifications as these changes will not significantly alter the scientific basis for the test protocol. Before you begin the analyses, we request that you provide us the locations from which the samples will be taken.

If you have any questions, please contact me at 301-504-3603.

Sincerely,
