MEMORANDUM FOR: James L. Blaha  
Assistant for Operations  
Office of the Executive Director for Operations

FROM: James G. Partlow  
Associate Director for Projects  
Office of Nuclear Reactor Regulation

SUBJECT: COMMISSION DOCUMENTS SUPPLIED TO THE CHAIRMAN RELATED TO  
PILGRIM RESTART NOT ON THE CHAIRMAN'S LIST

Attached is a chronological list and copy of the documents sent by the staff to the Commission in accordance with the special instructions in EDO Control #5920, dated October 17, 1990. These documents were in our project file but were missing from the list provided by the Chairman's office.

As discussed between Michael Callahan and Richard Wessman, this also completes action on EDO control #5919, which requested copies of these documents to be forwarded to OCA. OCA had requested the documents to support a Congressman Kostmayer request.

An advance copy of the document package was provided to Ms. Portner of the Chairman's office on October 18, 1990.
