ATTN: Mr. John L. Skolds
Vice President, Nuclear Operations
Virgil C. Summer Nuclear Station
P. O. Box 88

Gentlemen:

SUBJECT: NOTICE OF VIOLATION
(NRC INSPECTION REPORT NO. 50-395/94-02)

This refers to the inspection conducted by Edwin Lea of this office on February 8, 1994 through March 4, 1994. The inspection included a review of activities authorized for your V. C. Summer Nuclear Station. At the conclusion of the inspection, the findings were discussed with those members of your staff identified in the NRC Inspection Report, Enclosure 2.

Areas examined during the inspection are identified in the report. Within these areas, the inspection consisted of selective examinations of procedures and representative records, interviews with personnel, and observation of activities in progress.

Based on the results of this inspection, certain of your activities appeared to be in violation of NRC requirements, as specified in the enclosed Notice of Violation (Notice). The violation is of concern because you failed to provide the required documentation of remedial training given to licensed reactor operators following the failure of weekly examinations.

You are required to respond to this letter and should follow the instructions specified in the enclosed Notice when preparing your response. In your response, you should document the specific actions taken and any additional actions you plan to take to prevent recurrence. After reviewing your response to this Notice, including your proposed corrective actions and the results of future inspections, the NRC will determine whether further NRC enforcement action is necessary to ensure compliance with NRC regulatory requirements.

In accordance with 10 CFR 2.790 of the NRC's "Rules of Practice," a copy of this letter and its enclosures will be placed in the NRC Public Document Room.

The responses directed by this letter and the enclosed Notice are not subject to the clearance procedures of the Office of Management and Budget as required by the Paperwork Reduction Act of 1980, Pub. L. No. 96-511.
