JAN 30 1980

Mr. Vincent Accardo
Market Administrator
Bell of Pennsylvania
841 Chestnut St., 13th Floor
Philadelphia, Pennsylvania 19107

Dear Mr. Accardo:

This confirms your telephone conversation on January 17, 1980, with Tom Melville of this office, in which we requested that a speaker-phone be installed on Mr. John Collins' telephone at the Three Mile Island (TMI) Information Office, 100 Brown Street, Store Number 14, Middletown, Pennsylvania. As agreed upon, the speaker phone was to be installed with the initial service.

Additionally, we have requested AT&T to extend 301-492-8976 from the Nuclear Regulatory Commission offices at the TMI Nuclear Power Plant to the TMI Information Office in Middletown. The number 492-8976 is to appear on all three instruments in that office.

For your information, on January 30, 1980, we had the telephone installer relocate one instrument, and move the recording unit to another desk.

Sincerely,

Vernon S. Kerr, Chief
Telecommunications Branch
Division of Facilities and
Operations Support, ADM

cc: JCollins
TMelville
