REMARKS This package is okay (It goes to the Commission for their approval of the change of NUREG 0737 dates).

However, ^{the section} ~~our review of~~ ^(BOKO) II.B.2.2. (Shielding) implies the question of whether the ~~Born~~ precip problem is a part of Long Term LOCA evaluation under 50.46 and AppK or part of Abundant Cooling under GDC 35 or whether it is "something else". If the problem affects conformance with the regulations, the deferral amounts to an exemption.

If it does not affect conformance with the regulations, it is a departure from NUREG 0737. Although the Commission can authorize either, you will need to come to some position on this ~~(we change our minds every time this issue arises)~~ so that the Commission has some idea of the nature of the kind of "deferral" this entails.

Please Bring Back for O&D *Henry*
