Gentlemen:

SUBJECT: NONCITED VIOLATION (NRC INSPECTION REPORT NOS. 50-313/90-41;
50-368/90-41)

This refers to the inspection conducted by Mr. I. Barnes of this office on October 9-11, 1990. The inspection included a review of activities authorized for your Arkansas Nuclear One facility. At the conclusion of the inspection, the findings were discussed with those members of your staff identified in the enclosed report.

Areas examined during the inspection are identified in the report. Within these areas, the inspection consisted of selective examinations of procedures and representative records, interviews with personnel, and observations by the inspector.

During this inspection, it was found that certain of your receipt inspection activities were in violation of NRC requirements. However, in accordance with Section V.G.1 of the NRC's Enforcement Policy, no citation is being issued for the violation described in paragraph 2.4 of the enclosed inspection report.

This report does not include specific inspection followup for any Diagnostic Evaluation Team findings (reference Diagnostic Evaluation Team Report issued December 21, 1989).

In accordance with 10 CFR 2.790 of the NRC's "Rules of Practice," a copy of this letter and its enclosure will be placed in the NRC Public Document Room.

Sincerely,
signed by
T.F. Westerman

Samuel J. Collins, Director
Division of Reactor Projects
