Vice President
Nuclear Power
231 West Michigan Street - P379
Milwaukee, WI 53201

Gentlemen:

This confirms our plans as discussed between G. J. Maxfield of your staff and C. L. Vanderniet of this office to have a meeting with you and members of your staff at the Point Beach Nuclear Plant on November 19, 1990, at 2:00 p.m.. The purpose of the meeting is to present the Initial SALP 8 Report for the Point Beach Nuclear Plant.

We encourage you to have appropriate corporate and plant management representation at the meeting to ensure a mutual understanding of the issues and findings being presented by the NRC.

While this meeting is considered a presentation and discussion forum between Wisconsin Electric Power Company and the NRC, the meeting will be opened to any other interested parties as observers. Those persons outside the licensee and NRC staffs should inform the Regional Office of their intent to participate.

We hope this meeting will benefit your organization and provide you with a meaningful characterization of the overall safety performance for the Point Beach Nuclear plant.

Sincerely,

Hubert J. Miller, Director
Division of Reactor Projects
